

## Over It "Weightless"

Visit "[Weightless](#)" on [MotoLyrics.com](https://MotoLyrics.com)

bent out of shape we make our way straight  
i would never take a chance on it if it didnt paralyze me  
completely

sure you think its all fun, but games are all i've won in  
this life  
i wouldnt give it all up if it meant id never feel so  
weightless

rebuilding the puzzle ive found scattered all around

i invent myself with every breath  
to take a step i look ahead  
and size up anything that makes me tremble.

i cant tell if the shifting pattern exists  
before i make it, but does it matter?  
you've got the time to find out for yourself.
