Can I be your superhero
I got no weight on my chest but I am a super man
One call and I will be there faster than a speeding train
Just tell me where it hurts and I repair the damages
Remove all your bandages my love is like medicine
Car kit do you know .. I will be the .. to your allergy
Whenever you need me call my name
And I will be right there to save the day
I will .. top building in a single ..
If it's keeping me away from you
I will .. back around before I ever walk away from you
.. to keep our love alive I will give my heart away
Tell me can I be your superhero
I can see right through your hurt like ..even the hiding
I see your love that you are crying .. do you know it's
name
.. I will be the .. to your allergy
Whenever you need me call my name
And I will be right there to save the day
I will .. top building in a single ..
If it's keeping me away from you
I will .. back around before I ever walk away from you
.. to keep our love alive I will give my heart away
Tell me can I be your superhero
.. I will be the .. to your allergy
Whenever you need me call my name
And I will be right there to save the day
I will .. top building in a single ..
If it's keeping me away from you
I will .. back around before I ever walk away from you
.. to keep our love alive I will give my heart away
Tell me can I be your superhero
