

V-Device "Hush"

Visit "[Hush](#)" on MotoLyrics.com

Hush
Let's find another place
You shouldn't have to hurt this man
But where did you aim?
Let's find another place
And soon erase your age
No time to hear you cry or moan
Now you can't retrace
Your steps and fade away Babe
Escape
Howl
say what you are you're not a jungle boy
Say what they did, the needles in your feet
Say what they please
The beast within
Hush
let's find another way
Survival rules preserve the rich
Killing the brave
Hush let's breed another race
We contemplate our view too long
Missing the shades
But I think I'll run away Escape babe
Howl
say what you are you're not a jungle boy
Say what they did the needles in your feet
Say what they feed The beast within
Say what you are
With the trigger in
his brains on the streets
The fingers leave
A toy slipping
