She wants the sky
You're not so high
What was your mission?
You said sometimes
"What should I do with a girl like you?"
She asks for fire
you give just smoke
Can you resist?
All one could gain
All one could do
You've compromised it
You really like it John?
You really love her John?
Or you lied?
All you do goes in a Waterfall
Without you Sally is so glad
All you can feed is a Waterfall
Without you Life is so Big!
I see you alone
You are alone
Maybe you're wrong
Maybe you'll fall
Fall
Do you feel lighter?
It should be easier
She's gone and the bed is empty
You really love me John?
Or are you going now... to pieces John?
You can't save this from the Waterfall
Without you Sally can live
All you can do is to walk alone
'Cause for you Life is so Big!
