I'm just a little nervous  
Just a little back off who you know  
I don't think they deserve us  
As they sit back, back off, here we go

I don't care if you love me  
I don't care, it's about just who you blow  
I don't have all the answers

I just want to know  
How low can you go  
How low can you go, go

Been a lot of crosstalk  
I don't think they'd listen anyway  
I got hit in the crosswalk  
Best be careful, back up what you say

I know you don't love me  
But I know just exactly what you show  
I don't want all the answers

I just wanna know  
How low can you go  
Wanna know, how long  
How low can you go, oh

80 cycles hummin' like a big twin comin'  
80 cycles comin' I know  
How low can you go? Slow

80 cycles hummin' like a big twin comin' in  
80 cycles comin' I know  
80 cycles hummin' like a big twin comin' in  
80 cycles comin' I know, I know, I know

Listen, bottom out, discount  
80 cycles goin' South, goin' wherever I go  
Kick start, motor mount, 80 cycles in your mouth  
80 cycles comin' I know

Got to live free, got gas, 80 cycles in your ass

Lower than I wanna go  
Die free, sacrifice, 80 cycles pay the price  
80 cycles comin' I know

Once more, your move, buckshot, 80 cycles slingshot  
One thing that I wanna know  
Bad move, dog food, 80 cycles too rude  
How low, how low, how low can you go?

How long can you go?  
How low, how low, how low can you go?

80 cycles hummin' like a big twin comin'  
80 cycles comin' I know  
How long can you go, go, go, go, go?

80 cycles hummin' like a big twin comin' in  
80 cycles comin' I know  
80 cycles hummin' like a big twin comin' in  
80 cycles comin' I know, I know, I know
