Sick as the sickest only can be
Armies of crazy crawling' all over me
Shaky at best is the ground where I stand
A frozen moment I just don't understand
Bats, in the belfry
Bats, in the belfry

C'mon now, let me feel you get on it
C'mon now, let me have it my way
C'mon now, when you can't really stop it
Open up the window got bats in the belfry
Bats, in the belfry
Bats, in the belfry

Pasted and wasted, taller than God
Burning my churches and blowing my wad
Quakin' beneath me, the ground that I own
A frozen moment that I'll always call home
Bats, in the belfry
Bats, in the belfry

C'mon..... Got bats in the belfry
Hold on..... rats on the way
C'mon..... Got bats in the belfry
Open up the window
Bats in the belfry
