What was done is lickin' me with fire
Do with me, do what you will
I'm cold and sick, I'm cold and sick and tired
Yeah, I've had enough, I've had my kill

And dare I say that I'm walking on today
With no direction ever had
Please forget me, leave me to what will
I'll be with you again at the end of the line

We all walk in a long black line
We all walk in time
We all walk in the black sunshine
We don't know who we are

We all walk in a long black line
We all walk in time
We all walk in the black sunshine
We don't know who we are

What is done still lickin' me with fire
Do with me, do what you will
I'm sick and tired of being sick and tired
Yeah, I've had enough, I've had my kill

And dare I say that I'm missing you today
With no direction ever had
I can't forget you or leave you to what will
I'll see you once again at the end of the line

We all walk in a long black line
We all walk in time
We all walk in the black sunshine
We don't know who we are

We all walk in a long black line
We all walk in time
We all walk in the black sunshine
We don't know who we are

We all walk in a long black line
We all walk in time

We all walk in the black sunshine
We don't know who we are

We all walk in a long black line
We all walk in time
We all walk in the black sunshine
We don't know who we are

We all walk in a long black line
Long black line
