Out for blood, take no prisoners  
Out for the kill and looking for donors  
As terror strikes, give your life  
We drink your blood, a human sacrifice

Ahh, stick in the knife  
Uhh, for blood and iron  
Iron  
Blood and iron

Thirst for more, our chosen path  
Awake and find the devil's wrath  
All those who dare and those who disobey  
Alone you'll find, dead as yesterday

Ahh, fight for you life  
For blood and iron  
Iron  
Blood and iron

Alright donors  
Donate

Flesh of steel, a legion of donors  
We are one as our blood transfers  
New found power raging through your veins  
Blood metal donors eat the last remains

For blood and iron
