Well, it seems like a dead man stickin' to you
And it seems like his last thoughts are stuck to your
shoe

Seem like a dead man stickin' to you
Seems like a dead man stuck to your shoe
Seems like a dead man stickin' to you, yeah
Seems like a dead man stickin' to you

Dead man hold me near
With all that you hold dear
I can shut my eyes down tight
And make you disappear
Then I fall down

Well, it seems like tomorrow
Is yesterdays news, yeah
And it seems like you can't win
Can't win for losing

Seems like a dead man stickin' to you
Seems like tomorrow is yesterdays news
Seems like a dead man stickin' to you
Seems like a dead man stickin' to you

Dead man what got you here
A little wrinkled little smeared
I can shut my eyes down tight
And make you disappear
Then I fall down

My eyes hang from their sockets
I wear a ball and chain
Can you hear the rockets
Exploding in my brain

They go

I feel the insecurity
I feel the sting of pain
The upside of insanity
I side with the insane

They go

They come across the black and white
They ravage me with fear
I can close my eyes down tight
And make them disappear

You know I feel like a dead man
Feel like a dead man
You know I think I'm a dead man
Think I'm a dead man

Dead man what got you here
A little wrinkled little smeared
I can shut my eyes down tight
And make you disappear

Dead man hold me near
With all that you hold dear
I can shut my eyes down tight
And make you disappear
Then I fall down
