Got a better night  
Got a better for somebody kill me  
Got a better tight  
For me it seem better  
That I ever had known before

How do you see with blindness all around you?  
How do you understand?  
When you see the enemy surround you?  
When do you show your hand?

Got to leave it alone  
Call me a nation  
Got to leave it at home  
Call me a brand new revelation  
Brand new revelation

I am a homicide  
Just a shadow waitin' for a casket  
I am preoccupied  
You know I think  
Someone want to kill me

How can you bleed with vultures all around you  
How could you give them hope?  
How can you sleep with murderers inside you  
I could never cope

Got to leave it alone  
Call me a nation  
Got to leave it at home  
Call me a brand new

I feel your cold hand, lyin' over me  
I feel the underside, your generosity  
And I hear the angels singing'  
Do they sing for me?  
I feel your cold hand

I feel your cold hand  
I feel your cold hand

How can you sleep at?  
How can you sleep at?  
How can you sleep at night?  
How can you sleep at?  
How can you sleep at?  
How can you sleep at night?

How can you bleed with vultures all around you?  
How do you understand?  
How can you sleep with murderers inside you?  
When do you show your hand?

Got to leave it alone  
Call me a nation  
Got to leave it at home  
Call me a brand new

Got to leave it alone  
Call me a nation  
Got to leave it at home  
Call me a brand new revelation  
Brand new revelation  
Brand new revelation
