Well, we had a lot of fun on Venus
We always had a ball on Mars
We're meeting all the groovy people
We've rocked the Milky Way so far

We danced around with Borealis
We're space truckin' round the stars

Come on, come on, come on
Let's go space truckin'
Come on, come on, come on
Space truckin'

Remember, when we did the moonshot?
And Ronny Trekker led the way
We'd move to the Canaveral Moon stomp
And every naut would dance and way

We got music in our solar system
We're space truckin' every day, hey, hey

Come on, come on, come on
Let's go space truckin'
Come on, come on, come on
Space truckin'

The fireball we rode was movin'
But now we've got a new machine
"Yeah, yeah, yeah, yeah", the freaks said
Man, those cats can really swing

They have music in their solar system
They rocked around the Milky Way
Danced around with Borealis
They're space truckin' every day

Come on, come on, come on
Let's go space truckin'
Come on, come on, come on
Space truckin'

Come on, come on, come on

Let's go space truckin'
Come on, come on, come on
Space truckin'

Yeah, yeah, yeah
Space truckin'
Yeah, yeah, yeah
Space truckin'
