Train, train burning like a absolute  
Drunk with the love of the fire  
Brain, brain burning and the leather boot  
Kicking like he never gets tired

I saw the coming of the faster than light speed  
Burning track, conventional fool  
Wham, crack, bam, slap, far out of sight speed  
Hammered like a kicking mule

Here we come now, here we go

Need you now, no mistakes  
Stand up tall and give me what it takes

Hit the ground running, I was faster than the light  
speed  
Burning before my feet hit the floor  
Damn machine gunning kept me far out of sight feed  
Pull the shades and lock all the 1, 2, 3, door

I saw the coming, coming into the void  
And I was drunk with the love of the fire  
Was a knock down, drag out, never fail me boots  
I was kicking like I never get 1, 2, 3, more

Here we come now, here we go

Need you now, no mistakes  
Stand up tall and give me what it takes  
Need you now, I'm not afraid  
Stand up straight and kick me, that's what it takes

Little hot, a little cold  
A little young is growing old  
A little prick, a little bold  
Never did what he was told

I'll tell you why you're feeling bad  
A little played, a little sad  
A little more you never had  
A little sane is going mad

Seems you had enough of me  
Enough or more eternity  
I'll tell you what I'm going to be  
I'm going to be your misery

And when you feel you're going to break  
Say your prayers for goodness sake  
We're going to see what you can take  
We're going to see now what it takes

Count it as you did before, count it out 2, 2, 3, 4  
Count it when you're going to break  
Count it out it's what it takes  
Count it when you're feeling bad

Count it when you're going mad  
Count on me for goodness sake  
Count on it and what it takes  
What it takes, what it takes

Train, train burning like a absolute  
Drunk with the love of the fire  
Brain, brain burning and the leather boot  
Kicking like he never gets tired

I saw the coming of the faster than light speed  
Burning track, conventional fool  
Wham, crack, bam, slap, far out of sight speed  
Hammered like a kicking mule

Here we come now, go

Need you now, no mistakes  
Stand up tall and give me what it takes  
Need you now, I'm not afraid  
Stand up straight and kick me, that's what it takes

If that's what it takes  
What it takes
