I'm gonna hunt it down
Gonna have my feast
Run it down
Gonna have my chase

Realize what I wanted to do
in stride, now "I can say to you"

Want it now, no matter what it takes
Want it now wont let it break

Realized what I wanted to say
In strife, I did all that you said

Innocent minded
it isn't my hand
Innocent minded
It is a migraine

Want it now, no matter what it takes
Want it now wont let it break ... me down ...

Break me ..
when the dawn comes to wake me....
Wake me....

Save me...
Save me ..
Save me...

Want it now, no matter what it takes
Want it now wont let it break
Want it now, no matter what it takes
Want it now wont let it break

Not a slave ...
Not a slave
I'm not slave now...
Wake me ..
