Tell me, tell me everything
Tell me if your boat is sinking
Tell me where you have been
Tell me, tell me everything

Following you, there's no need to understand

Tell me, tell me what you say
Bring me, bring me closer to you
Show me what you have done
Tell me, you're the only one

Following you, there's no need to...
Following you, there's no need to understand

Tell me, tell me everything
Tell me, tell me what you're thinking
Tell me where you have been
Tell me, could be anything

Following you, there's no need to...
Following you, there's no need to understand

Tell me, tell me everything
Would tell me if your boat is sinking?
