Ive lost track of all my days  
I keep counting all the ways you make me feel yeah  
Oh its so good baby  
Yeah its too good its too good to be real  
And I know what Im looking for  
But you seem to give me more  
And it feels like everyday  
I cant even hardly wait oh yeah yeah  
My lover my friend

Your sun gets rid of my rain  
Your love releases my pain  
I find it hard to believe oh  
That you and I can live so happily yeah

So we walked this path before  
And I never loved no more than  
Im loving you babe

Come on now give me your hand  
Only want if its right  
If its right its making 2 babe  
2 living souls and together well grow old  
If you give your heart to me  
I promise I will set you I will set you free  
Of the weight the weight of the way babe

Your sun gets rid of my rain  
Your love releases my pain  
I find it hard to believe oh  
That you and I can live so happily

Your sun gets rid of my rain  
Your love releases my pain  
I find it hard to believe oh  
That you and I can live so happily
