"Nature Of Love"

The power you possess
takes care of all the rest of us
a bent tree who needs his leaves
you call me to the night

a long and empty road
and the stars shine so bright
cuz baby the lights are out tonight
you're here with me baby

and i hear your call
your fillin up my head
i love to fall
in love with you over again

i remember what the sunrise brings to me
would you be that one to wake me up
if I said please baby with a cherry on top

and i can't find my shoes again
the keys are lost (and so are you)
and if you were late baby
would you call me
so i would not be scared

every day just goes by
my hair keeps getting longer
are you still loving me all the way
thats all i need

and i hear your call
your fillin up my head
i love to fall
in love with you over again

i remember what the sunrise brings to me
would you be that one to wake me up
if I said please baby with a cherry on top

and your smile, your love, your smile
with your cherry on top

and if you know that way
to keep me satisfied
but you go that way
its just the nature of love

and your filling up my head
and i love to fall in love with you over again
if i remember what the sunrise brings to me
would you be there to wake me up if I said
please baby with your cherry on top

note after note
and smile after smile
and i feel your love babe
all this while

note after note
and smile after smile, smile
and i feel your love babe
and I feel your love
and I feel it
and I feel it
and I feel it
