I am walking on the water
The sea has turned to glass
I am walking on the water
The sea has turned to glass

Send for all the doubters cameras
Have them see at last
I am walking on the water
The sea has turned to glass

And If you knew what I knew
If you knew, what I knew
If you knew, what I knew
If you knew, what I knew

If you knew, what I knew
If you knew, what I knew
If you knew, what I knew
If you knew, what I knew

If you knew, what I knew
If you knew, what I knew
If you knew, what I knew
If you knew, what I knew
