I came in the building
I just wanted something better for me an' my children
Than the hate mixed with anger, I'm cockin' my banger
My enemies are in danger, even total strangers

Sneaky bastards wanna flame us
I know that they watchin'
Arrogance when they speak
Like no one can stop them

I'm hearin' voices in my head, tellin' me to pop 'em
Determination an' frustration an' that'll drop 'em
Blowin' up the AK, I'm ready to chop 'em
Tell the cops to bring buckets, get ready to mop 'em

I came from the bottom, I tried to be peaceful
In the belly of the beast with the virus an' meet you
It's fucked up, that's the way they treatin' my people
Life is like a horror flick but I'm makin' a sequel

Where the bullets grow, teeth get hungry an' eat you
Where the angels'll greet you
An' I'd die for my people
So my children get treated as equal

I, I never wanted you
I took a chance on the other side but nobody survived
Everyone was gone

I never wanted you
I was alive for the second time but nobody survived
Everyone was gone

They keep tellin' me war is the answer
It's a disease of the spirit
It's more than just cancer
It runs through the blood deeply

These cowards are sneaky
They try an' keep me quiet from startin' a riot
I try to be silent
The solution is violence

Couldn't see it any other way
Bust a shot, one time for my runaways
To all my kids who was used an' abused
To my teenage mothers who was young an' confused

To my fatherless children bein' born by the millions
This is more than just a little noise
I got a bullet for every child molester that ever touched
a little boy
You sick bastards

Your punishment's comin' fast an' the system is hectic
I mean every word, it's not just a record, that's real
It's seems like ever since they dropped the towers
Everybody's been abusin' they powers
What's real?

I, I never wanted you
I took a chance on the other side but nobody survived
Everyone was gone

I never wanted you
I was alive for the second time but nobody survived
Everyone was gone

Oh no, they don't give a damn about us
Oh no, they don't give a damn about us
Oh no, they don't give a damn about us
Oh no, they can't give a damn about us

Oh no, they don't give a damn about us
Oh no, they don't give a damn about us
Oh no, they don't give a damn about us
Oh no, they can't give a damn about us, oh no

I, I never wanted you
I took a chance on the other side but nobody survived
Everyone was gone

I never wanted you
I was alive for the second time but nobody survived
Everyone was gone

I never wanted you
I took a chance on the other side but nobody survived
Everyone was gone

I never wanted you
I was alive for the second time but nobody survived
Everyone was gone
