Dreams in chains, pretty faces,
all those people who could have made it.
spent all my time thinking about what was lost,
a million minds couldn't make up for the cost.

Pre-Chorus:

It's hard to make the heart not belong,
it's easy to put sadness into song,
but does that make a difference?
does that change the distance?
does that make you feel any more different...

Chorus:

about it..
nah nah nah nah..
about us now..
nah nah nah nah..
about everything thats going on
in this world right now?

I'm stuck in the middle, a tough decision,
should I follow you, you're out at sea and
I can't swim!

Pre-Chorus

Chorus

nah nah nah nah... (x4)

I can't swim (x3 until fade)
