

Overstreet Paul "All The Fun"

Visit "[All The Fun](#)" on MotoLyrics.com

Well the guys that I work with they work real hard
And they like to have a good time
And at the end of the day its their time to play
And they like to go and unwind
Well they make a lot of jokes and they laugh and they
poke fun at me
Cause I don't stay long
And they can't understand why a married man is in a
hurry to ever go home

CHORUS

Well I just tell 'em that all the fun that I'm ever gonna
need

I gotta waitin at home for me
Yeah she likes to dance and she loves romance
And she throws a great party
Naw there never any dull minutes around here
Cause somethin always a goin on
All the fun that a man could want
I got waitin for me at home
Hey I use to be a fool and a sucker for a high time
Anytime night or day
I had around the clock smile just call me and I would
love be a readily on my way
But to tell you the truth I was lonesome and blue
Prayin for a little light in my life
And then a miracle came and everything changed
And I made that little woman my wife

CHORUS

Well let me tell you that all the fun that I'm ever gonna
need

I gotta waitin at home for me
Yeah she likes to dance and she loves romance
And she throws a great party
Naw there never any dull minutes around here
Cause somethin always a goin on
All the fun that a man could want
I got waitin for me at home
We got two little kids callin me daddy
Runnin all over the house
And when they finally go to sleep
Their momma and me
Cuddle and we snuggle and we party on the couch

CHORUS

Yeah I got all the fun that a man could want
Waitin at home for me
Yeah she likes to dance and she loves romance
And she throws a great party
Naw there never any dull minutes around here
Cause somethin always a goin on
All the fun that a man could want
I got waitin for me at home
I said now all the fun that a man could want
I got waitin for me at home
Right at home
I got all the fun that a man could want
All the fun that a man could want
I got all the fun that a man could want
All the fun that a man could want.
