Grandma she don't really get around good anymore  
In fact to get her out the house is really quite a chore  
But every day somebody seems to find a time to stop  
To see if grandma needs something from where they  
go to shop

'Cause you see

CHORUS: Love helps those who cannot help themselves  
It cares about those hearts that's been put up on a shelf  
It will introduce a lonely soul to a lonely someone else  
Love helps those who cannot help themselves

Mr.Johnson has a small farm down in southern  
Tennessee

But one year he took ill before the time to plant to seed  
And no one knows which neighbour planted or they just  
won't tell

But he had his best crop ever by the time that he got  
well

'Cause you see

(REPEAT CHORUS)

A little helpless baby child was born into this world  
She didn't have a daddy and her mother was just a girl  
But there came a young man willing to give both of  
them a home

The girl he married the child he cherished though she  
was his own

'Cause you see

(REPEAT CHORUS)
