I've been searching for an impossible way out,
This much I know it won't be long until we're out of this
place for from this race,
I'm done with contending I'm sick of delays,
People are strange with you and with me,
Let's get out of here,

Far from here where we go only you need to know. Oh
oh
Far from here where we go only you need to know. Oh
oh
Far from here, Far from here,

Stay strong, don't fear,
I won't let you go now,
We've come too far and it's only the beginning

Forget what's around,
Who where and how I've got you my baby from the
sky to the ground
They've been strange with you and with me let's get
out of here,

Far from here, where we go only you need to know. Oh
oh
Far from here, where we go only you need to know. Oh
oh
Far from here, Far from here, far from here, far from
here,

I just want my time alone with you,
And no distractions,
I don't care what they'll say you'll do,
Cause I'm in love with you

(In love in love yes I'm in love with you you)
(In love in love yes I'm in love with you you)
(In love in love yes I'm in love with you you)
(In love in love yes I'm in love with you)

Far from here where we go only you need to know. Oh
oh

Far from here where we go only you need to know. Oh
oh
Far from here, (where we go only you need to know. Oh
oh)
Far from here, (where we go only you need to know.
Only you need to know Oh oh)
Far from here, Far from here, Far from here, Far from
here,

(In love in love yes I'm in love with you)
