Pick a time, pick a place
I'll remember every word you said
Choose a star in the sky
And I'll recall the name you called that star
'Cause I mean what I say
And I mean what I do
And I mean it when I say I love you

[Chorus]
So please don't go too far
'Cause I need you, baby, yeah
Wherever you are
I just hope you're thinking of me too
Please don't go too far
'Cause I need you, baby, yeah
Wherever you are
I just hope you're thinking of me too

Oh, oh
Yeah, yeah, yeah, yeah
My, my, my, my, my
My baby

There's so many things I can't do
Can't watch TV or sleep in my bedroom
Opening my eyes in the morning is hard too
'Cause I don't have you, baby, I need you
'Cause you're like the sunshine in the morning
And you're like the moonlight in the evening
Baby, you're the smile cooking up in the kitchen
I'm dreaming and wishing for you to come back

[Chorus]
So please don't go too far
'Cause I need you, baby, yeah
Wherever you are
I just hope you're thinking of me too
Please don't go too far
'Cause I need you, baby, yeah
Wherever you are
I just hope you're thinking of me too

And why can't we be together
When our love is all we need
I can't understand the pressure
People put on you and me
I can't stop thinking, thinking 'bout you, babe
I can't stop thinking, thinking 'bout you
I can't stop thinking, thinking 'bout you, babe
I can't stop

[Chorus]

So please don't go too far
Wherever you are
Please don't go too far
'Cause I need you, baby, yeah
Wherever you are
I just hope you're thinking of me too

Oh, oh
Yeah, yeah, yeah, yeah
My, my, my, my, my
My baby

Oh, oh
Yeah, yeah, yeah, yeah
My, my, my, my, my
My baby
