[Chorus]

Baby, let's dance all through the night
Like it's the new millennium
Baby, let's dance all through the night
My body needs a dance floor

Fast, slow, get the flow moving right through my bones
All I wanna do is dance, every moment take the chance
Work's creating tension, the man is causing friction
To my mind's addiction, my mannerism's like a strobe
light

I'm moving, flick, flick, I'm moving on and off
I'm moving, flick, flick, flick, flick
My mannerism's like a strobe light
I'm moving, flick, flick, I'm moving on and off
I'm moving, flick, flick, flick, flick
My mannerism's like a strobe light

[Chorus]

Baby, let's dance all through the night
Like it's the new millennium
Baby, let's dance all through the night
My body needs a dance floor

Hold up, you've brought your fire in my eyes
Changing up the dancing, yeah, moving too fast
So just breathe, ooh, you know that it's gon' get hot in
here
So just do me a favour, I'm a strobe light

I'm moving, flick, flick, I'm moving on and off
I'm moving, flick, flick, flick, flick
My mannerism's like a strobe light
I'm moving, flick, flick, I'm moving on and off
I'm moving, flick, flick, flick, flick
My mannerism's like a strobe light

[Chorus]

Baby, let's dance all through the night
Like it's the new millennium

Baby, let's dance all through the night
My body needs a dance floor
Baby, let's dance all through the night
Like it's the new millennium
Baby, let's dance all through the night
My body needs a dance floor

Just dance
Just dance
Just dance
Just dance

[Chorus]
Baby, let's dance all through the night
Like it's the new millennium
Baby, let's dance all through the night
My body needs a dance floor
Baby, let's dance all through the night
Like it's the new millennium
Baby, let's dance all through the night
My body needs a dance floor

Just dance
Just dance
Just dance
Just dance
