I'm torn, I lied,  
It's an emotional mess  
can't decide, what i want

i think, it's better  
if i just leave you alone  
but it's hard, i confess

oh she is alright  
oh she she blows my mind  
i don't know what i want now  
i can't make up my mind  
i don't know what i want now  
i can't make up my mind

I'm scared, I like you  
you are no good for me  
it will hurt, to say good bye

I'm attached to your smile,  
you are adorable  
but I don't know if I'm ready  
but I don't know if I'm ready

oh she is alright  
oh she she blows my mind  
i don't know what i want now  
i can't make up my mind  
i don't know what i want now  
i can't make up my mind
