Eye's on the road and I am running out of time  
And I can't turn around.  
A one way journey to a place that I don't know  
And I will not be found.

My chance to breathe,  
Brake these chains,  
Drive away  
And now I'm free,  
Watch my fears start to fade.

I will not stop untill the flashing light are gone  
And I can't hear a sound.  
I'll grow my hair and dye it green,  
I won't be seen.  
I live on safer ground.

My chance to breathe,  
Brake these chains,  
Drive away  
And now I'm free,  
Watch my fears start to fade.

My chance to breathe,  
Brake these chains,  
Drive away  
And now I'm free,  
Watch my fears start to fade.
