REDNECK FANCY BOY

Ove Stoylen

Album: Dusty Boots

Looking good behind the wheel

Driving slowly to show the steel

Acting cool no matter what

He will show her what he's got

Music flows out of the car

Crank it up! You can hear him from the bar

Backseat full of teenage girls

He smiles, oh he's made it in this world

He's a red neck fancy boy who knows what he likes

He grabs his beer, and gets into fights

He cruises in his beamer all night long

He wants the whole wide world to know he's around

Yea he's cool, And he knows it.
