So many regrets from last night  
I should've put up a bigger fight  
Should have just said no  
I should have made you go  
Such a huge mistake  
I shouldn't have been there in the first place

I don't want to be  
Just another one  
Just another one  
Just another girl  
Who lets you ruin her world  
You don't know love  
To you I'm just another one

And now reality set in  
I shouldn't have let it begin  
But I took a chance  
Blinded by love, I couldn't see past  
I know where it all went wrong  
Cause I let it happen it's my fault

I don't want to be  
Just another one  
Just another one  
Just another girl  
Who lets you ruin her world  
You don't know love  
To you I'm just another one

I don't want to be  
Just another one  
Just another one  
Just another girl  
Who lets you ruin her world  
You don't know love  
To you I'm just another one
