Here we go again just like before
Said I'd really strive for the world to show
Open up your eyes and shut your door
Cause I can't really hide this anymore

So I came in the door
Said it before
I never turned out to be so self absorbed
Now it seems like I should win an award
For trying to buy shit that I couldn't afford but
That's another night another time
Right now
Just got a sight and out of mind
I don't really stop for the light with the lamb
I'm just trying to make some light with a lamb

She came up to me
So happy
Asked me for my picture
I said gladly
Told me "my smile's" when the crowd got loud
Then she heard bright eyes and she thought it was
about her
I ain't normally the bragging type
But come big comes smile off a leader height
But yo excuse me
You free tonight?
Well I'm the rapper of the band lets just smash tonight

Here we go again just like before
Said I'd really strive for the world to show
Open up your eyes and shut your door
Cause I can't really hide this anymore

Here we go again just like before
Said I'd really strive for the world to show
Open up your eyes and shut your door
Cause I can't really hide this anymore

In this tragic wait when the passion fades
I'm a train wreck, basket case
So go and close the drapes it's a long hot summer like

Master Ace

That's how it is in Georgia

Chicks' so hot it's like you live in scorcher

Please I can't get rid of gorgeous

She's chaining my life like we live in torture

I know we've been here before

And I know we can't find the reasons

And I know that you got a boyfriend

My lips sealed I can keep a secret

And I know it might seem fecisious but chill with the
jealousy it ain't that serious

But here we go again another world when

So when we hook back it's gonna explain how I am

Here we go again just like before

Said I'd really strive for the world to show

Open up your eyes and shut your door

Cause I can't really hide this anymore

Here we go again just like before

Said I'd really strive for the world to show

Open up your eyes and shut your door

Cause I can't really hide this anymore

Here we go again just like before...
