

Walking Papers "The Butcher"

Visit "[The Butcher](#)" on MotoLyrics.com

who knows how he got out early
how we got a second chance
it's funny who we meet
in a back of an ambulance
some time the guy gets locked
and this time he was with on nurse
just when things can get no worse

so she moved in a stranger
i could tell it was no good
but mother do all sorts of things
that their babies dont think they should
he introduced us to his demons
we started moving in reverse
just when things can get no worse
that's when they do, baby

we ---- finally found his body
he laid out their for weeks
seems he and the buthcer knife went dancing
most of been cheek to cheek
she started talking crazy
'bout a pistol and a puss
just when things can get no worse
that's when they do, baby
