She'll change your life
If she looks your way

Everybody wants her
Everybody needs her
She'll change your life
If she looks your way
Everybody wants her
Everybody needs her
Just like the tide
She could drag you away
Everybody wants her
Everybody needs her
She'll change your life
If she looks your way
Everybody wants her
Everybody needs her
Cause when she hits you
You feel no pain

If life was a plan
You'd fall through
Your days will look back on you
Tell yourself you really think you can
Forgetting your judge is you
I'll tell you once but never again
There's only one that you should live
And you should live it today

Everybody wants her
Everybody needs her
She'll change your life
If she looks your way
Everybody wants her
Everybody needs her
Just like the tide
She could drag you away
Everybody wants her
Everybody needs her
She'll change your life
If she looks your way

Everybody wants her
Everybody needs her
Cause when she hit you
You feel no pain

One good thing about boozing
When you drink it
You feel no pain
One good thing about boozing
When it hits you
You feel no pain
One good thing about boozing
When you drink it
You feel no pain
One bad thing about boozing
When you wake up
When you wake up
You feel that pain

Everybody wants her
Everybody needs her
She'll change your life
If she looks your way
Everybody wants her
Everybody needs her
Just like the tide
She could drag you away
Everybody wants her
Everybody needs her
She'll change your life
If she looks your way
Everybody wants her
Everybody needs her
Cause when she hits you
You feel no pain

Cause when she hits you
You feel no pain
Cause when she hits you
You feel no pain
