Give me your love

Written by walter mccarty

The way that you smell, girl I like to play in your garden  
Through your eyes I can tell, your looking for someone  
to love

Intimate conversation and the mood is right  
Visions of us love making, one on one tonight

Baby just say you wanna leave this club with me  
Just tell me how you feeling, that you ready and your  
willing

Baby just say you wanna spend the night with me  
Don't wait another minute just give me your love

The way that you feel, girl I'll love to lay here forever  
By your moan, I can tell, girl you feel the same as I do  
(The same as I do)

Intimate conversation and the mood is right  
Visions of us love making, one on one tonight

Just say you leaving with me  
Just say you wanna leave with me

Just say you leaving with me  
Cause I can give you what you need

Just say you leaving with me  
Tell me when your ready girl

Just say you leaving with me  
Baby I can rock your world
