"Here We Go Again"

Visit "[Here We Go Again](#)" on MotoLyrics.com

When we started out we were so strong
Can't say where we went wrong
Cause now I'm here all alone
I'm out on the couch while your up in the room
I wanna get out but I know I love you
And I wanna see it work this time

These tv dinners are getting old
Our physicals at a all time low
We need some church girl, oh hallelujah
Whatever works girl, I wanna get it back

Baby here we go again
Baby here we go again
Baby here we go again
Baby here we go again

When you ask me what's on my mind
The words don't come out right
Now were in another fight

Girl I wanna be your closest friend
I don't wanna see it end
Baby lets see this through
I wanna be with you

Girl can we please try again
I should have been a better man
We can work this out
Don't say that's it's over now
