Girl I only want the best for you, and I appreciate  
Every little thing you do, you've been so good to me  
I love you girl forever promise you I never, leave

It's my turn to make you feel how you make me feel  
It's my turn to keep you happy make you happy  
It's my turn to give you love, like you give, baby girl I'm  
here  
Just to love you, to love you

I can make you feel like that (3x)  
I can love you like that (2x)

Girl I'm so blessed to have you, now I can say  
That dreams do come true, you are so special  
I'll always be here for you baby I adore you, always

It's my turn to make you feel how you make me feel  
It's my turn to keep you happy make you happy  
It's my turn to give you love, like you give, baby girl I'm  
here  
Just to love you, to love you

By the way your body moves, when my hands are all on  
you  
I can tell that you like it  
And baby when you oooh, when I'm inside of you  
You can't hide it  
Girl I know it feels good
