Only for a day, could you love me like  
Like I was yours forever and always

It's funny I'm feeling like we're more than friends  
Loves got a hold on me  
I don't know what to say or where to begin  
All I know is I'll do anything for your love

Daily I wait impatiently, for you to come my way  
And maybe I could interest you, in loving me  
If only for tonight, so

(Hook)  
Only for a day, could you love me like  
Like I was yours forever and always

I'm sensing that you feel the same, and that's enough  
For me to say it's worth a try  
You only live once, gotta live your life  
But I don't wanna pressure you or offend you at all  
So let me know, what's on your mind  
Come what may I'll still be grateful for the chance to  
say you  
If only for tonight I could get close to you baby

(Bridge)  
Only, only for a day could you love me like it's forever  
(2x)
