We bonded over broken bones  
Whose broke skin  
Who's fractured in two places  
And who's hurt the most  
We bonded over broken bones

How many Vicodin we took before bed?  
How many we sold to the band sleeping on our floor?  
Week one of a two week tour  
God knows, they'll need it more than us

You and me, an X-ray machine  
I swear that day you saw straight through me

We're two bags of bones broken  
And talking of people we both know in common  
Amongst other things that I shouldn't mention

You and me, a hospital love scene  
If only these broken bodies were ours forever
