Refrain: Come on pretty mamma, I need you to show me,

All the things you do, they sure will blow my mind!

Heart is on free line, just need you to call it,

And I know it'd be wrong if I'd force you to love me!

Doing one, with the second one on mind,

Third to a friend, I already had that fun,

Going to the forth, gonna give me some true love,

Looking for the fifth, not satisfied enough.

I want to taste those red lips and blond hair,

Hear your voice, while lying in my bed,

So come(cum) with me, there won't be a delusion,

We'll make the sin, but skip the absolution...

Refrain:

It's hard to find, real love, when you are still young,

In love with the one, but always on the run,

Your body's aching, in need to be touched right,

That doesn't claim, love, inside your heart!

I want to taste those red lips and blond hair,

fell like leaving? I'll make you wanna stay,

So come(cum) with me, there won't be a delusion,

We'll make the sin, but skip the absolution...

Refrain

Guitar solo

It seems you love to be out of reach,

One step, two steps, are enough for me,

Now I am here, and I ain't gonna leave,

'cause if you got something, better give to meeee!
