We were headlong into the abyss  
In a four door sedan  
And a kid that always stuttered  
We stole it, for the feeling, of stealing  
And drove it, just like our days had been stolen

Follow me down  
Follow me down  
Follow me down

And we'll raise our glass  
To borrowed cash  
To borrowed cash

Our wheels touched the highway  
We traveled on down  
From the valley that raised us up to shrink down  
And gave us the drive  
To keep driving from dreary and dread  
To make bets we could not afford to

Follow me down  
Follow me down

And we'll raise our glass  
To borrowed cash  
To borrowed cash

C'mon, c'mon, to borrowed cash

Well call the police, go ahead call your shrink  
Call whoever you want but I won't stop the car  
Well call the police, go ahead call your priest  
Call whoever you want, call in the National Guard!

Well call the police, go ahead call your shrink  
Call whoever you want, call in the National Guard!  
Well call the police, go ahead call your priest  
Call whoever you want

Well call the police, go ahead call your shrink

Call whoever you want but I won't stop the car  
Well call the police, go ahead call your priest  
Call whoever you want, call in the National Guard!

Well call the police, go ahead call your shrink  
Call whoever you want, call in the National Guard!  
Well call the police, go ahead call your priest  
Call whoever you want

I ain't gonna wait around  
I ain't gonna wait around for some pill to kick in  
And I ain't gonna wait around  
I ain't gonna wait around for some pill to kick in  
And I ain't gonna wait around  
I ain't gonna wait around for some pill to kick in  
Gonna wait around, gonna wait around  
For some pill to kick in.
