Catch me Iâ€™m falling down
Cause weâ€™re falling out
This is the time for us
Thereâ€™s no time to discuss
We shouldnâ€™t wait no more
Girl my hearts at war
Iâ€™m not gonna lie
I could never say goodbye

So count down hereâ€™s to the memories
Jump up and reach for the skyline
You know as well as I
That we could fly
X2

Spin me around again
Now weâ€™re in like sin
Raise your glass up high
Hereâ€™s to every night
We shouldnâ€™t wait no more
Girl my heartâ€™s at war
Iâ€™m not gonna lie
I could never say goodbye

So count down hereâ€™s to the memories
Jump up and reach for the skyline
You know as well as I
That we could fly
X2

Donâ€™t you break my heart
I can feel it beat
I can feel it when you look at me
X3

So count down hereâ€™s to the memories
Jump up and reach for the skyline
You know as well as I
That we could fly
X3
