Funny how the words once spoke to me
And I could sing a phrase I really don't believe
Cause I'm holding on to all these things I used to
say
Now the words come to me

And I fight it almost every day
Cause I know that it's just what we need
Watch me go cause I know it's what we need
Watch me cause I'm finally free

I can't stand and become the one you push around
Cause standing up is way to hard I'd rather stay on
the ground
I'm holding on to all these things I used to say
Now the words come to me

And I fight it almost every day
Cause I know that it's just what we need
Watch me go cause I know it's what we need
Watch me cause I'm finally free
X2
We're finally free
