

We Are Forever "Make It Through"

Visit "[Make It Through](#)" on MotoLyrics.com

I sleep with one eye open
I lay awake when I dream
I dream about reality
but reality dreams me

Fix me when I'm broken
tie off my loose ends
I'll buff you with an empty hand
cause girl you know I can

Cause I've got problems you've got them too
so let's make it through this stormy weather
I'll pray to God we'll be together
x2

We lie
we're all liars
we dream to inspire
we live our lives upon the stage
cause music saves our lives

Cause I've got problems you've got them too
so let's make it through this stormy weather
I'll pray to God we'll be together
x5
