Ask yourself, are you a slut?

- No you're not!

Did you forget how much you are worth

- It's a lot!

Do you remember when we used do it all for free?

Your head is shouting

Please please please,

please please please

Don't let your cock do all the work

Where did you bottle up

the gentleman, the gentleman?

Where did you bottle up

the gentleman, the gentleman?

Where did you bottle up

the gentleman, the gentleman?

Where did you bottle up

the gentleman, the gentleman?

give me your hands, give me your hands

give me your hands, give me your hands

Your head is shouting

Please please please,

please please please

Don't let your cock do all the work

all the work

All those around you

Please please please,

please please please

What can you do to shut us up,

shut us up?

You are like a shut-in on the prowl

Everyday is like your first night off,

- since your bail.  
but we will never write you off.

Your head is shouting  
Please please please,  
please please please

- Please please please!

Don't let your cock do all the work

- Please please please!

All those around you  
Please please please,  
please please please

- Please please please!

What can you do to shut us up?

- Please please please!

We will never write you off  
We will never write you off  
We will never write you off  
We will never write you off  
We will never write you off

- Please please please!

We will never write you off  
We will never write you off  
We will never write you off  
We will never write you off  
We will never write you off

- Please please please!
