Fascinate, fascinate, fascinated  
With the underclass  
She broke down, she broke down, she broke down  
and decided to act

For every new baby  
Investment, investment  
for every whore, relief

No matter a drunkard,  
a swineherd, a spaniard  
we're all treated equally

Canada, Cana-daddy-dooddy-da  
Let her keep a memento  
She has not been able to sleep  
Since the days of Trudeau  
On music, on painting, distract us with drying  
and don't let the audience die

Watch Alice get better, and Peggy get stronger  
they'll still publish once in a while
