All i need come back to reality  
remember how is immortality  
So much pain takes me to the undead  
give me a pass i can rent

Steven fell left me here yesterday  
he thought of silence like poetry  
romance always guides what's lost in his mind  
i can't follow his ride

Why do i fight..and what  
And all i've seen..is death  
And all i've taken..is blood  
Where did i start..and end

Where're my roots what's the place i came from  
what's my name whose the voices that i've got  
lust for life is something it seems i forgot  
was i born in the war

It's a paper that if you sign you have lost  
your true self down there you come against  
If i could i would went back to my home  
In this swamp i'm alone

Why do i fight..and what  
And all i've seen..is death  
And all i've taken..is blood  
Where did i start..and end

..and now i see soldiers passing by
