All i learned from the astronaut  
feeling right until the rain goes off

Shut your eyes cause i'm blinded by glare  
your beautiful skin and your gral hair

Choose again what's your part in my life  
are you the good or are you the wrong

Fell asleep hunting sounds of yours  
i became what i wished for

All i learned from the astronaut  
"lighten your shadows in the forest of youth"

Shut your eyes cause i'm blinded by glare  
mutes are coming out of my mouth

I'll become a childs play  
for some to pretend for some to be loved

Fell asleep hunting sounds of yours  
i became the astronaut

Cry with me

Fly with me

Tonight the sky feels so childish alone  
nobody wants to swing with the stars

Come with me now the time is right  
we'll cross the road so give me your hand

There's a bird that dies to reborn  
let's do the same and wake up fast

Fast enough to reach and hold the past  
memories that didn't last

All i learned from the astronaut  
"lighten your shadows in the forest of youth"

Shut your eyes cause i'm blinded by glare  
mutes are coming out of my mouth

I'll become a childs play  
for some to pretend for some to be loved

Fell asleep hunting sounds of yours  
i became the astronaut

Fly with me

Remember me
