

We Came From Waters "Crash"

Visit "[Crash](#)" on MotoLyrics.com

Rain i feel you so much
we drive the same cars
at least we have each other
if we crash

Rain time was a fake
he said that she was gone
but still she pounds my chest

Hey
this is what you think
the voice of a love machine
the one you played replayed
switch it..

..again once more i can't aim
tattoos are scratching my brain
and everything i had for lost
keep coming taking place

Hey
this is what you think
the voice of a love machine
the one you played replayed
switch it on and off
and now it's broken
