

## Weebl "Rotate Your Owl"

Visit "[Rotate Your Owl](#)" on MotoLyrics.com

In this experiment you will require  
One sterilized, standardized, scientificized owl.

Ro-ro-rotate your owl  
Ro-ro-rotate your owl  
Ro-ro-rotate your owl  
Rotate your owl for science

This lab aint for fun so we leave our fun owls at home  
This lab is for science so we need a science owl  
We get our owls from the shelf over there at the top  
With the other birds that we use for science

Yeah, me I prefer a peregrine hawk,  
But every now and then you need a bird that can  
squawk  
Yeah hawks are great and eagles too,  
But when you're dropping mad science only owls will  
do.

Ro-ro-rotate your owl  
Ro-ro-rotate your owl  
Ro-ro-rotate your owl  
Move your owl around until your breek new ground

Yeah, gimmie and owl I move it up I move it down  
I move it side to side I move my owls with pride.  
But if you want something more special come see me  
I move my owls really professionally.

I paid all paid all my bills for college  
By using all my owl rotation knowledge.  
Come on y'all stop with the back-chatter  
Cause owl-based science is all that matters.
