You used to be one step ahead.  
It's just because you don't fear.  
This time you're not gonna make it,  
But I know you will try.

Here left nothing alive in this hostile waters,  
Left nothing alive - and the wind keep singing atonal  
tune.

It's so much deeper than I thought.  
I try to get out but the doors are closed.  
You don't fear cuz you don't care,  
Yeah when you care you start to fear.

Here left nothing alive in this hostile waters,  
Left nothing alive - and the wind keep singing atonal  
tune.

Oh god I'm climbing up the wall,  
The fucking wall becomes the floor.  
You don't fear cuz you don't care,  
Yeah when you care you start to fear.

Here left nothing alive in this hostile waters,  
Left nothing alive - and the wind keep singing atonal  
tune.

Shake me...

You hear the unborn baby scream.  
That scream squeezes everything,  
Oh god It's tearing everything.  
Nothing will be the same again...  
You can hear but you can't see it.  
You can hate but you can't hurt it.  
you can love but you can't touch it.  
You can scream but noone hears you.
