Rise now, awaken from your slumber  
The spell that you're under  
Is melting away now  
Sunset is breakin' through your window

And making a shadow  
The ghost of a long day  
Goes driftin' by  
It's so late and now it's time to

Rise  
You're runnin' out of daylight  
Stare into the sunlight  
Stand and face the cold night

You can rise  
And while the world is sleeping  
The light is in your keeping  
Open up your eyes  
Rise

Nightmares have gone  
And left you haunted  
You got what you wanted  
You wanted to breathe

But somehow you crumbled under pressure  
The pain of your pleasures  
Has taken you way down  
But now it's time to lay down  
Your broken mind and

Rise  
You're runnin' out of daylight  
Stare into the sunlight  
Stand and face the cold night

You can rise  
And while the world is sleeping  
The light is in your keeping  
Open up your eyes  
Rise

The ghost of a long day  
Has passed you by  
It's so late and now it's time to

Rise  
You're runnin' out of daylight  
Stare into the sunlight  
Open up your eyes  
Rise  
Open up your eyes, yeah

[Incomprehensible]  
You're runnin' out of daylight
