[Mega]

Oi oi Runway boys
Yo big up Werd, Deeko, S.O.S. Scotland
All type, everybody out there
Madhat for the link up you already know (get me)
This is Streets All Salute
More than what you call a group
Euro - Gang

When the pain runs deep
We don't cry tears (no way)
Solve them, all the same problems
Right there (so we pray)
Yeah stuck between your dreams and a nightmare
Vision impaired, living in fear
You can die here (Must be another way)
No love in these cold roads it's so fragrant
Live my life in the fast lane doe chasing
No patience made moves with known pagans
Lost the material things kept the soul vacant
Big ting for protection I'm a magnum packer
The irony is you f**ked if ever I'm clapping at ya
Back bustin a had enough of these fagot rappers
So a press um like shirts fresh out the
haberdashers's
Nothing for me to get um covered in sheets
You shouldn't utter a peep there's no love in these
streets
(Oi Oi) I just dupied another beat
Nowadays we in Scotland like every other week

[Werd]

This is UK rap
Scotland London you know were we at
I think they forgot the Scottish ones
We make noise - Have you forgotten c*nt?
This is UK rap
Scotland London you know were we at
I think they forgot the Scottish ones
So we got the best to come and talk to um

You was waiting on this one

We just done, moved up a level
No settled we pushing onwards
Upwards, just us, reppin it first cause
Us does tons they could never keep up with
And some dumb c*nts always running their words with
Allot of fabrication aggravation lacks purpose
Itâ€™s not captivating to use your imagination
Demonstrating all the hating and placing it on the
surface
Hurts itâ€™s, not like your bars gonna serve us
Only if you worked at a bar doing service
Served us right from being like unheard of
To getting on the mic with hype we deserve cause
S.O.S. been rapping and repping this wee scene
Since we seen it, we be at it, believe it is our team
Thatâ€™s achieving it and seeing it
Through till the end
And shout S.A.S. Mega and Mayhem

[Sample - Sons of Scotland]

[Deeko]

Underestimated by so many now they want to listen
We got to that level, embraced
The others fallen victim
From a distorted vision I seen it all
Right past your contradictions
In every one of the songs you've written
Itâ€™s not an option is it? To give up
A life of making records trying to break the record
This is how you spend it
Don't get a mention rewrite it they'll feel different
About to change history like the Germany school
curriculum
I'm so far ahead of the pack
Theyâ€™ll need to sprint to get to the path
Of which a think its better they pass
Feeling sick they proceed to quit,
Trying to do there best, honestly
Think you should knock it on the head, like Tusia did
Itâ€™s S.A.S. S.O.S. donâ€™t you forget it
We stood up while these other artist fold under
pressure
So remember the next time the audience asks you
whoâ€™s better
When calling us legends
Just a rhetorical question itâ€™s obvious

We out in Scotland, Edinburgh
With some hot tings, telling ya
Youâ€™re a wee model lass and sheâ€™s popping
I need weed tell Leigh he should drop in
Whole team lean we kill shows go shopping
Where they eat haggis sip Buckfast
Name another rapper out who got such class
My suave so sharp it can cut glass
Castles we cut past in them plush cars
As a younger bricks in my backpack
Brought doozie more chicks and a fat stack
Thatâ€™s werd to Werd we linked up with Madhat
Now everybodyâ€™s in sync on this mad track
And I've only begun
To zone just for fun
On them bangers - Highlanders
There can only be one (Highlander)
I used to eat with them havens in hells kitchen
Names Brave-heart screaming freedom
I'm Mel Gibson
